

ICC - Missed Offering Report

The following two pages are a scan of an Official Report supplied to me by an ex-member of the ICC. This Report was provided to each of 13 D-Group Leaders presumably for their use in attempts to collect overdue tithes from members of their assigned group. All of the member names have been blocked to insure their privacy.

The Significance of this Report is its' mere existence! The ICC has claimed over and over: 1) That they do not track members' contributions. 2) That they promote 'free will' offerings per the Bible. 3) That they do not hound members for their tithes. This Report refutes those claims. This Report when given to any D-Group Leader would expose the names of all members in all groups who are late with their payments. D-Group leaders [or anyone having a copy of this Weekly Report] could use this data to pressure specific members [even other entire groups] who may be 'struggling'. It could also be used against the D-Group leader who had the most people in their group who were late - etc. Let us take a moment to meditate in silence for the D-Group leader represented on line 32 - who collected only \$130 of the expected \$558.

What we can learn from this Report ? Please notice the Date - the month and day have been blocked but the year is clearly 2000 - this is not a 'thing from the past' - it is happening in the ICC Today! Also please note the Amount of Vows - I'll save you the trouble - the average is \$ 47.68 per week. This particular ICC church expects to collect \$8,200 per week or \$ 205,000 during the year. The 39 individuals represented by name on this report are obviously in trouble with their 'free will' offerings to the ICC.
